

Zeb'Z Cart'Z Information sheet

- **Do not operate cart in the Surf on the Beach or at Night**
- Keys are to be removed when cart is left unattended
- Chargers are to be kept out the weather and off the beach at all times. It is best to leave them at home when operating cart.
- The power cord end requires 110V service with 20 amp circuit. It is your responsibility to charge the cart correctly. It is recommended that the cart be charged every night. Electric carts are not designed to **run continuously without charging**. It is best to charge the cart when not in use. Run times vary when carrying 4 persons or driven in sand.
- **Carts are designed for 4 persons do not overload.** (Suspension damage may occur at your cost). **Do not make turns at high speeds.**
- **When renting gas carts use clean fresh unleaded gas.**
- Our goal is to provide you with a reliable cart. In the event a problem occurs, we ask you to check all operating instructions and the charger to make sure it has power and is connected properly. If you are unable to resolve the problem call us. If we cannot correct it or give you another cart you will receive a refund for unused rental period. Failure to report problem will result in **no refund** for that period that we were not notified.
- Upon delivery and pickup we inspect for damage. In the event the cart is damaged during your rental period you will be charged.
